The Nugget Is California's Leading Mining Weekly

Nevada City Nugget

VOL. VI, NO. 42 | The GOLD Center | NEVADA CITY, CALIFORNIA | The County Seat Paper | FRIDAY, AUGUST 26, 1932

EDITOR'S IMPRESSIONS OF NEVADA COUNTY

By R. R. Anderson

It is easy to boost Nevada City. We have so many natural advantages here that exaggeration is unnecessary. And right now Nevada City is particularly fortunate in that it possesses the best basic industry under present economic conditions —gold mining.

The new editor is not familiar enough yet with the mining situation to be able to write intelligently on recent important developments, but suffice it to say that many big, responsible mining companies are operating in this county and others have their eyes turned in this direction. Almost every day representatives of capital seeking investment are arriving in Nevada City. Some of these men do their work very quietly and without publicity and their activites only become known when papers are recorded or development work begins.

With mining as the basic industry Nevada City right now has the best immediate future of any small city on the Pacific Coast in the opinion of the editor.

The fact that Nevada City has been somewhat to one side of the beaten path probably accounts for the fact that it is little known to the outside world and the visitor here is pleasantly surprised to find a wide-awake, thriving and prosperous community with good schools, public improvements, beautiful homes nestling in the picturesque foothills and a climate that cannot be surpassed.

Within recent years the attractions of Nevada county have become better known to the outside world and this accounts for the increasing number of summer homes being built in this locality.

With early work promised on the Tahoe-Ukiah highway this section will naturally become better known and increased automobile travel will mean a lot of revenue for local business men.

It is the prediction of the editor that Nevada City is starting on an era of growth and prosperity, that will be enhanced with the return of normal business conditions generally.

Nevada county and particularly Nevada City is fortunate in the fact that the residents are, on the whole, real Americans. The foreigners who have located here are of the better class and have the makings of good citizens. California is a wonderful state but there are many communities that are seriously handicapped with undesirable aliens who do not become good Americans or good citizens.

Nevada City is an ideal place to make a home. The person who is fortunate enough to be comfortably situated here can be thankful. Located at a favorable distance from the larger cities, yet far enough away to preserve its identity, we have all the elements that combine to make an ideal home town.

The Nugget will endeavor to cooperate in every way with local residents and organizations in civic and community problems.

FINE ORE FROM THE TOBIASSEN CLAIMS

Theodore Tobiassen brought in some beautiful specimens of ore freely sprinkled with gold, from the Tobiassen claims, which adjoin the famous Champion ground on the north, and situated on Cement Hill. Mr. Tobiassen has spent a lot of time on this property and has opened up the ground so that it is easily inspected. The ledge where the fine specimens were found averages about two and a half feet in width.

JUDGE GEO. L. JONES SPEAKS AT BUSINESS WOMAN'S CLUB

Judge George L. Jones addressed the Grass Valley business and professional women's club Wednesday evening at Bret Harte Inn. It was the first formal meeting with a splendid attendance.

The speaker was presented by program chairman Marie Bertino.

Many new members were added to the club within the last few days as the charter closes August 31st.

PRODUCTION SCHEDULED SHORTLY AT MURCHIE

The Murchie mine, located east of Nevada City and purchased about the first of the year by the Newmont Interests who own the Empire-Star mines in Grass Valley, is scheduled to resume production shortly. Approximately $150,000 has been expended on new developments and equipment, with the shaft being deepened 300 feet below the old workings and much development work performed.

In these new operations large reserves of commercial ore are reported exposed. Completion of the sinking program will provide the Murchie with a 1600 shaft.

It is expected that fully 250 men will be employed by this mine when the development work is complete and the mill is placed on capacity operation..

Mr. Kirvin is superintendent of the Murchie mine. He is a mining man of wide experience.

SOUTH STAR MINE TO BE OPENED BY SILVER PICK CO

The South Star mine, a property in the Deadman's Flat district, three miles southeast of Grass Valley, which is by some regarded as a mine of mystery, is to be reopened by the Silver Pick Consolidated Mines Company of which Lloyd L. Root, former state mineralogist, is president. The company recently acquired the property which consists of the South Star, mill site, Sumner and Alta claims, from A. W. Johnson of San Francisco, who has owned them since 1903.

Explorations carried out in 1920 by Johnson are said to have verified statements of rather extensive mining operations on the claims about 1871, concerning which more or less mystery has attached.

The operations of 1920 uncovered a two-compartment shaft which had apparently been sealed on the surface and various drifts. One chute, containing pay ore, had the appearance of having been abandoned.

Among the articles recovered were an old wheelbarrow, shovels, drills, and some smaller equipment. A $20 gold piece, coined at the private mint of Kellogg & Company, San Francisco, in 1854, was found in the debris.

Plans of the present company are to reopen the mine and carry on extensive new development work.

GREAT FUTURE IN STORE FOR THESE TWO CITIES

One of our prominent citizens stated a few days ago that within five years the four and a half miles between Nevada City and Grass Valley would be thickly settled.

He gave as a good reason the fact that he thought by October the Hoge mine should have about 25 or 30 men working; the Murchie by the first of the year, if it keeps progressing as it has done the last six months, should have 250 men employed; after the sinking at the Empress, which is progressing at a rapid rate, there should be a large sized crew of men working, besides several promising small mines are just getting under way. A number of big mining properties of the Grass Valley are just opening up and getting under way.

NEVADA COUNTY TAX COMMITTEE MEETS 24TH

The Nevada County Tax Committee will meet next Wednesday, August 24th at the Nevada Irrigation District offices in Grass Valley.

C. J. Rolph, chairman, will preside at the meeting, which will consider the Nevada county budget and tax rate that was adopted and approved by the county supervisors recently.

BENNETTS WORKING MINE IN CANADA HILL DISTRICT

In the Canada Hill mining district southeast of Nevada City limits Mr. Bennetts of Grass Valley has sunk a shaft, built a hoist, and is now milling ore. Water for the mine is being taken from the Nevada Irrigation ditch.

This mine is in a promising mining district where quantities of gold have been taken out in the past.

New Publishers of Nugget Announce Plans for Improving Newspaper

This issue of the Nevada City Nugget finds the paper under new ownership, the former proprietor, Mrs. Elsie Willoughby, having sold out to the undersigned, R. R. and C. B. Anderson, who have taken possession of the property.

The new proprietors are both practical newspapermen and printers who are locating in Nevada City with the intention of becoming permanent residents. Both are married men with families, and it is our intention to get out the best newspaper that our patronage and ability makes possible. We feel there is room for considerable improvement in the paper and as soon as we become better acquainted with the field we will announce more definite plans as to the size of the paper and the frequency of publication.

The Nevada City Nugget has an exceptionally good mechanical equipment, and there is practically nothing in the way of job printing that we cannot handle successfully and on a competitive basis.

The new proprietors have no sidelines. Our entire time and attention will be devoted to getting out a good newspaper and the production of commercial and job printing. The paper will continue to feature mining news, but we expect to increase the volume of local news and increase the size of the paper.

We hope to be able to produce a newspaper that local people will be proud to refer to as "our paper." We expect to keep the paper clean and free from objectionable news and advertisements. We want to boost every legitimate enterprise and take an active part in community and civic affairs.

Nevada City is a beautiful little city with a fine future and we will strive to do our part in making it an even better place to live. We want to get acquainted with everybody and will welcome any suggestions for increasing the service of the Nugget to the community. We realize the fact that prosperity can only be accomplished by everyone putting their shoulder to the wheel and building up this community. By working for the best interests of all concerned we will surely help our own interests.

Talk is cheap and we are well aware that our success will be in proportion to our service to the community. With this in mind we will do our best.

R. R. ANDERSON.
C. B. ANDERSON.

SUMMER HOMES BEING BUILT AT PINO ALTO

Pino Alto, three miles from Nevada City on the Banner Mountain road, is the scene of considerable building activity right now.

This tract was opened in April by Greer & Harrigan, Sacramento and is being sold for summer home sites. A number of cabins and cottages are or soon will be, under construction.

Byron S. Dome, of the Dome Engraving Co., Sacramento, is one of the prospective builders. Mr. Dome is psending his vacation in this locality and states that the surroundings and background at Pino Alto are ideal for the purpose of a summer residence away from the heat of the Sacramento Valley.

MANY SMALL MINES ARE BEING DEVELOPED

At the Gold Bug quartz mine east of Nevada City four men are working an arrastra on good gold ore.

While this is a method used in earliest times in this section these men find that they are making better than wages.

Two of the men working on the property are the owners and they have the other two as assistants.

The Gold Bug is situated down at the foot of a steep mountain and next to a stream of water.

Just above the Gold Bug mine there is another small quartz property working a five stamp mill. Two men are in charge of operations.

LAST CHANCE MINE

At the Last Chance mine situated near Washington, which is east of Nevada City, a lot of development work has been done and there is a five stamp mill on the property. The mine is shut down at present.

At all these properties there has been a considerable amount of development work done.

NEVADA, PLACER CO LAND SALE IS SCHEDULED

The delinquent assessment sale of lands within the Nevada Irrigation district is advertised to start Wednesday the 24th of August.

Many parcels of land in both counties are listed as delinquent. Under the irrigation district laws no title accrues to the pufchaser for a period of three years.

SCHOOLS TO REOPEN FOR WORK MONDAY

Both the grammar and high schools of Nevada City will open next Monday and it is anticipated that there will be quie an increase in pupils in both schools.

In the grammar school many children have just become of school age besides there are many new families that have moved into our district.

There was an unusually large class of graduates from the grammar school last year and most of them are expected to attend, besides there are new pupils coming in from nearby schools and other scetions of the country.

The teachers in the two schools have all returned from vacations or attending summer schools and are well prepared to reopen school work Monday.

FOREST CREW CONTROL BIG CANYON FIRE

Tahoe Forest officials are making a searching investigation of the suspicious circumstances surrounding the Sunday fire on Diamond Creek, 22 miles north east of Nevada City, and which was brought under control late Monday afternoon.

The fire started near the old Last Chance mine, the buildings of which were not destroyed. One hundred and twenty-five men were sent out from Nevada City and had the fire under control after it had burned over about 100 acres.

As seen from the Tahoe-Ukiah highway Sunday afternoon it was burning rapidly through a heavy growth of underbrush and timber and throwing up dense clouds of smoke.

The fire that burned over about 50 acres in the Moonshine section near Camptonville was extinguished by forest service men and a few experienced fire fighters of that section.

Ten men who are stationed at Skilman Flat as emergency firefighters were used on this fire. They got back to camp late Sunday and after a night's rest were sent to the Diamond Creek fire Monday morning.

Sheriff George R. Carter was an official visitor in Truckee Monday.

MASONIC FUNERAL FOR LATE THOMAS HUGHES

Funeral services were held Tuesday morning for the late Thomas Hughes, a former resident, who passed away Saturday evening in San Francisco.

He had been ill only two weeks from a stroke of paralysis. Mr. Hughes was 88 years of age and was in excellent health up to the time of his last illness.

He was born in Bangor, Wales, in 1844 coming to the United States when only four years of age and coming to Nevada City in 1884.

When he first came to Nevada City he was employed as a hoisting engineer at the Providence and Mountaineer mines. He also was engaged in the grocery business for a number of years.

Mr. Hughes was highly respected and a good citizen always taking an active interest in public affairs.

He married Miss Emily Giles, daughter of pioneer parents, and lived in Nevada City until the time of her death in 1917. Then he moved to San Francisco to reside with his daughter, Mrs. J. R. Zimmerman, and they also lived in Honolulu for a time.

Funeral services were conducted by Nevada lodge, No. 13, F. & A. M. of which he was an old and honored member. Mr. Hughes was a member of Wyoming Tribe, No. 49, Improved Order of Redmen. He had served as Sachem, and District Deputy Grand Sachem.

Holmes Funeral Home had charge of funeral arrangements.

His daughters, Mrs. John R. Zimmerman and Mrs. Charles J. Estay, and their husbands came up to attend the funeral.

CELEBRATE TWO HAPPY BIRTHDAYS

A party of fourteen motored to Lake Tahoe and into Nevada State in celebration of the birthdays of Miss Alice Davis of Nevada City and Fred Tourtellotte of Big Creek. A chicken dinner was spread at the camp of Mr. and Mrs. R. W. Aycock at Lake Tahoe and included a huge birthday cake decorated with candles.

After spending the night at Lake Tahoe the party motored to Carson City where Mr. Doroghty, a friend of Mrs. Davis, conducted the party through the Nevada State penitentiary and the government Indian school. From there they went on to Reno and then back to Nevada City. All were enthusiastic over the sights they had seen.

Those in the party were Mr. and Mrs. Alvin Walch and small son of Seattle, Wash.; Miss Bertha Walch and John Walch of Fowler; Mr. and Mrs. Freeman Hale, Mr. and Mrs. Fred Sourtellotte of Big Creek, Miss Alice Davis and the host and hostess, Mr. and Mrs. Will W. Davis.

TWO STATE FIRES CONTROLLED THURSDAY

Yesterday was a busy day for State Forester W. F. Sharp and men as they were called out on two fires.

The first one was back of the County Hospital and a crew of four men were sent to the scene and had the fire under control in short order. It burned over about one tenth of an acre.

About one o'clock a call came in from the Newtown section on Deer Creek. Eleven men were rushed out on this fire and as the other men returned they were also sent out. The men had the fire under control after it had burned oved about one half of an acre of timberland.

No particular damage was done in either case and the quick action of Mr. Sharp and his efficient crew of men prevented it spreading over a big territory, as the grass is dry at this time of the year.

VETERANS OF FOREIGN WARS DANCE AT OLYMPIA

The Veterans of Foreign Wars held a dance at Lake Olympia last Saturday night that was a tremendous success. The crowd stayed till 4 a. m.

Promoter Anderson said that in his experience this dance was outstanding and that the Veterans of Foreign Wars were a fine organization to work with.

STOCKHOLDERS REPORT IDAHO-MARYLAND MINES

The Idaho-Maryland Mines. Inc., reported to stockholders the year ending December 31, 1931, resulted in income from operations of $340,-228.

The tonnage milled was 54,375. resulting in recovery of $752.656 in gold and silver.

Smelting charges, development, taxes, improvements and operating costs ran above $412,000.

E. L. Oliver reported experiments and developments of better recovery of metals made the outlook brighter for future operations.

This report is for the year 1931 and since that time a number of important discoveries have been made in the mine.

During the past year the flotation plant and ball mill were installed at the Idaho-Maryland mines. They discarded the amalgamation process and are using concentration instead.

The company within the past few months acquired the Loma Rica ranch of 250 acres which adjoins the Brunswick property, that is owned by the Idaho-Maryland mines company.

Beginning with the first of the present year extensive development work was planned and is now being carried out.

FIRE DEPARTMENT RESPONDS TO TWO FIRES

Wednesday forenoon an alarm of fire was turned in from Main street and it was discovered that the J. J. Jackson delivery truck had caught fire. The truck "back fired" as it came down the steep street. Carl Foote, the driver, ran to No. 1 Fire house, not far away, for an extinguisher but found the truck usually kept in the fire house was over at No. 2 house where Truck Driver H. bert Hallett had taken it to change a hose. Foote turned in an alarm and the fire department responded at once. The upholstery and wooden part of the car were quite badly burned, but can be repaired.

At the noon hour an alarm came in from Commercial street where a fire had been found on the roof of the old Colley store. It is believed sparks from a nearby building had started the fire. It was quickly extinguished with no damage.

ENLARGE GAS PLANT

The P. G. & E. company has also found it necessary to enlarge their gas plant between Nevada City and Grass Valley as the demand in the two cities is becoming about all that the present plant can supply. It is felt that the growth of the two cities is responsible for the greater demand for gas and that within a short time the old plant could not take care of its customers.

APPROVE WATER APPLICATION TRUCKEE PUB. UTILITY DIST.

The Railroad Commission has approved an application of Sierra Pacific Power Company and Truckee Public Utility District by which the former is authorized to sell anr the latter to purchase the electric distribution system in the town of Truckee with the exception of certain rights and physical properties that are used in the sale of power to Southern Pacific Company and its subsidiary and affiliated corporations. The selling price is $7,000.

The transfer is said to be for the benefit of public service, in that unnecessary costs resulting from the maintenance by Sierra Pacific Power Company and Truckee Public Utility Disrict of competing electric distribution systems in Truckee will be eliminated, and the service to the consumers in the town improved and the cost of the service reduced.

TEICHERT AND SON TO START

Next Monday the P. G. & E. company will connect up a line carrying 100 hp. current to a crusher on Deer Creek for the Teichert and Son Construction company. who were awarded the contract for placing crushed rock and oil on several miles of the Tahoe-Ukiah highway east of the Ski Course above Nevada City.

It will require about six weeks or two months to complete the job.

W. H. Daniels, the New York Life man, was a business visitor in Columbia and San Juan Wednesday.

THE PRIMARY ELECTION

Next Tuesday is the day that will decide the fate of candidates for various state and county offices.

The new proprietors of the Nevada City Nugget are strangers in Nevada county and it would be unwise and premaure to make any forecasts or attempt to influence the voters in behalf of any particular candidates. The merits of most of the candidates are unknown to us, except by hearsay and, as we have no axes to grind, we only hope that in each case the best man will be elected.

We are publishing this week advertisements from various candidates and we ask our subscribers to read them. The Nugget will be published as an independent newspaper but in the national election the new proprietors are one hundred per cent for the Democratic ticket, being firmly convinced that a change of administration will go a long way toward restoring better conditions. Personally, we feel that the Republican administration has failed signally in meeting the problems of the last three years and that it would be folly to expect any decided improvement under the present leadership.

Coming back to the primary election, which does not involve the national candidates, we urge the voters to be guided by a careful study of the records and announced programs of the various candidates. We are interested primarily in electing men who will try and help the mining industry. Aside from that we should consider the personal integrity of the candidate and his attitude on public matters in general.

The contest for the office of superior judge is one that is attracting a great deal of interest locally, and promises to be close. Judge Raglan Tuttle has made a splendid record and there are many who believe he should be re-elected. The new proprietors of the Nugget have a very friendly feeling toward Judge Tuttle, having resided in Placer county where he began the practice of law. We personally know Mr. Tuttle to be a man of fine character and outstanding legal ability.

Regarding Judge Jones' candidacy, we understand he is a man of ability and has a fine reputation in Nevada county. Regardless of the outcome of the contest for superior judge, Nevada county will be well served.

Congressman Englebright and J. L. Seawell for state senator are unopposed and this, in itself, proves that they are both men who have made good and have served the people well. In both cases there is every reason to believe that this district will be well and ably represented.

Lack of space and time precludes any further comment on the political situation in this issue but when we swing into the final campaign it will be the endeavor of the Nugget to present, fairly and impartially, such facts regarding candidates and policies as will help in getting the right men elected at the November election.

Last Sunday Mr. and Mrs. Robert Ewing and Mr. and Mrs. Ed Martine enjoyed a trip to Lake Tahoe and Reno.

Mr. Elliott, candidate for the assembly sixth district, of Placerville, was a visitor in Nevada City Monday.

Mr. and Mrs. James Dolan and guest, James Manning, motored out over the Tahoe-Ukiah highway to Emigrant Gap and back to Nevada City over the Lincoln highway turning off above Colfax and coming in over the new road in the Chicago Park district.

SCIENTIFIC MOTOR EX-RAY
TUNE-UP $3.00

Including—
1 Adjust Ignition, check timing.
2 Clean and adjust contact points.
3 Check Valves for sticking or Burnt conditions.
4 Test Ignition Coil under compression.
5 Adjust Generator charging rate.
6 Test each individual Cylinder for compression and rings.
7 Clean motor and generator commutator.
8 Check all wiring for open and short circuits.
9 Clean and adjust spark plugs.
10 Check Carburetor.
11 Test Ammeter and Ignition Switch.
12 Fill Battery and clean terminal.

ELECTRIC CAP LAMPS, AND VENTILATION IN MINES

Permissable electric cap lamps are found to be safer and more practicable than open lights for use in metal mines and tunnels as well as in coal mines, as the result of studies conducted by the United States Bureau of Mines in cooperation with the California State Industrial Accident Commission. The results of these studies of the methane hazards incident to mining and tunneling operations in the Coast Range Mountains are given in Bulletin 359, by S. H. Ash and J. H. Rankin, recently published by the Bureau of Mines.

Because explosive gas is usually absent from metal mines and tunnels, persons engaged in these branches of the mining industry have so far failed to recognize the economic advantages to be gained by the more general use of up-to-date permissible electric cap lamps. The reasons given are that these lamps are not necessary, that they are believed to be costly, and that they offer handicaps to the workmen. In spite of the fact that thousands of permissible electric cap lamps are in use in coal mines (a reliable estimate places the figure at 350,000 for mines of the United States) many of our coal-mining people continue to use open lights not only in so-called open-light mines but also in some mines officially designated gassy, as well as in blasting operations which require the use of black powder, fuse and detonators, or squibs.

The primary, though not the sole contributing reason for the use of permissible electric cap lamps is the occurrence of explosive gas. Although they are indespensable for the safe operation of such lines, more general use in all mines would not only refrom explosions, but also tend to reduce mining costs because they furnish better illumination at reduced cost, increase the efficiency of the workmen, and save accident cost in consequence of fewer accidents from falls of roof, falls of persons, handling of explosives, transportation, and other factors where efficient and safe illumination is necessary.

From the experience of the Upper Alameda Creek Tunnel and other tunnels in California it has been proven that it is safer, more efficient, and more practical to use exhaust systems of ventilation where explosive or asphyxial gas is encountered, either at the face or particularly away from it. If outbursts of gas occur at the face, exhaust ventilation is the only safe system to use. The experience at the Upper Alameda Creek Tunnel also indicates that the use of portable electric cap lamps is less costly, safer, and more efficient under such circumstances than incandescent lighting systems that involve wiring.

One of the major causes of metal-mine accidents is the use of fuse and detonators for blasting, which also generally requires the use of open lights for lighting the fuse; on the other hand, there is no situation in metal-mining practice where the much safer electric blasting is not feasible and practical. The adoption of electric blasting aids materially in reducing accidents from blasting in all types of mining..

The use of portable electric cap lamps instead of open lights in metal mines should receive the earnest consideration of all metal-mining men; in the end, up-to-date portable electric cap lamps will be found more efficient than any other present-day type of mine lighting. They give better illumination to the men, are less costly on account of ultimate lower operating costs, and effect a saving in accident cost as a result of eliminating accidents from falls of person and material, blasts, fires, haulage, and numerous situations where the lack of lighting at the critical time is a primary cause of the accidents.

Smoking underground should be prohibited in every mine, as it is in gassy coal mines. With the adoption of electric blasting and electric cap lamps there should be no need for matches, igniters, or open lights and by the elimination of these factors underground in metal mines there will be an increase in efficiency and decrease in accidents that will tend to make metal mining safer.

Copies of Bureau of Mines Bulletin 359, "Permissible Electric Cap Lamps and Ventilation in Certain California Mines and Water-Tunnel Construction," may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C., at a price of 5 cents.

Mr. and Mrs. Frank Guenther were visitors in Reno last Sunday.

Lionel Davies, who recently underwent an operation for appendicitis is able to be about again.

ELECT JUDGE
PULLEN
PRESIDING JUSTICE

ENDORSED
—by the Four Brotherhoods of Railway Trainmen and numerous other Labor organizations in recognition of his HUMANITARIAN PUBLIC SERVICE.
—by Bar Associations and attorneys throughout the District who declare he is particularly fitted for the Appellate Court through EXPERIENCE. ABILITY and PERSONALITY.
—by Farmers and Business Men because of his intimate knowledge of WATER RIGHTS and his stand that these rights MUST BE RIGIDLY PROTECTED for Northern and Central California.

THE ELECTION AUGUST 30TH

gives the citizens of this Appellate District their first opportunity in years to Elect a Justice, inasmuch as the present presiding justice was Appointed by the Governor. As pointed out by the Sacramento "Union", Judge Jullen's Opponent is a Political Appointee Whose Decisions, When Appealed From, Are Passed Upon by His Own Brother Who Is a Member of the Supreme Court. "Isn't one member of a family sufficient in the higher courts of the State?" the "Union" asks.

LEGAL NOTICE

SUMMONS

In the Superior Court of the State Of California, in and for the County of Nevada.

ALICE HARE, Plaintiff, vs., C. B. CONLIN, DANA WICKS, CHAS. L. SALMON, MARY E. SALMON, W. D. HILL, S. A. PARNALL, LAURETTE E. PARNALL, JOHN DOE, RICHARD ROE, MARY POE, and BLACK AND WHITE COMPANY, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein. Defendants.

Action Brought in the Superior Court of the State of California, in and for the County of Nevada, and the Complaint Filed in the Said County of Nevada, in the Office of the Clerk of Said Superior Court.

CHARLES L. GILMORE,
Attorney for Plaintiff.

The People of the State of California Send Greetings to:—
C. B. Conlin, Dana Wicks, Chas. L. Salmon; Mary E Salmon, W. D. Hill, S. A. Parnall, Laurette E. Parnall, John Doe, Richard Roe, Mary Poe, and Black and Whie Company, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein, Defendants.

YOU ARE HEREBY NOTIFIED, that an action was brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Nevada, by filing a complaint in the office of the Clerk of said Court on the 30th day of April, 1932, in which action Alice Hare is plaintiff, and you are defendants.

Said action is brought by the plaintiff against you as defendants to quiet her title to the properties described in the complaint and set forth herein, and,

YOU ARE HEREBY DIRECTED TO APPEAR and answer said complaint before this Court to show what right, title, estate, lien or interest you or any of you may have or claim in or to the property described in said complaint, and herein set forth, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, within ten days from the service of this summons, exclusive of the day of service, if served on you in said County of Nevada, and within thirty days, exclusive of the day of service, if served elsewhere; and you are further notified that unless you so appear and answer within the time above specified, that plaintiff will take judgement, forever quieting her title to the lands and premises herein described, or will apply to the Court for any other relief demanded in the complaint.

That said lands and premises are situate in the County of Nevada, State of California, and described as

The Northeast quarter (NE¼) of the Northwest quarter (NW¼- and the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section thirty-six (36), Township eighteen (18) North, Range eight (8) East, Mount Diablo Meridian, and containing eighty (80) acres of land, according to the official United States survey thereof.

Given under my hand and the Seal of the Superior Court of the County of Nevada, State of California, this 30th day of April, 1932.

(SEAL)

R. N. McCORMACK, Clerk.

LEGAL NOTICE

ORE BUYER'S APPLICATION

In compliance with Section 1, Chapter 183, Statutes of 1929, the undersigned, whose principal place of business is at 211 Spring Street, Nevada City, Nevada County, California, hereby gives notice that application has been made to the State Mineralogist for a license to carry on, within the State of California for the year ending December 31, 1932, the business of milling, sampling, concentrating, reducing, refining, purchasing and receiving for sale ores, concentrates and amalgams bearing gold or silver, gold dust, gold and silver bullion, nuggets and specimens.

Protest may be made by any person to the issuing of such license at the office of the State Mineralogist, Ferry Building, San Francisco.

YUBA RIVER COUNTRY

Mines of Alleghany
B. J. L. Wolff.

Mining engineers throughout the world have the secret wish that some day they might have a good prospect in some gold mine of the Alleghany district. The story of dozens of these mines is fascinating in the extreme.

During prehistoric times a tributary of the ancient Yuba passed directly under where Alleghany now stands. The gravel miners in their search for gold followed these ancient channels far into the mountain side. So rich in gold was the bedrock of these lava covered rivers that great fortunes were taken out during the 50's, 60's, and right through to the 50's, 60's, and right through to Two of the Tightner tunnels, the Knickerbocker and the Highland-Masonic, were of considerable length, especially the latter which extended a mile into the mountain to within probably 200 feet of Forest. On the Forest side one of the tunnels of the South Fork workings also followed this channel and met the Highland-Masonic. The road between these two towns travels two miles and reaches over 5000 feet in elevation, being blocked with snow in the winter. During the early days therefore people were known to have traveled between the two towns through this 7000 foot tunnel.

From Alleghany the ancient stream followed south directly across the canyon of the present Kanaka Creek, its bed being more than 100 feet higher than the present bed of the latter. Where the channel enters the ridge on the opposite slope the mining camp was known as Chipp's Flat. Passing through the ridge to the north side of the Middle Yuba canyon the channel again emerges in what was once the mining camp of Minnesota Flat. Here another tremendous slice of the old stream has been eroded away by the Middle Fork of the Yuba. At the south side of the canyon the channel was again worked at the mining camps of Orleans Flat and Moores Flat. Proceeding from there through the North Columbia region beyond it joined the prehistoric Main Yuba Channel. These were the gravel mines so commonly referred to as being on the Blue Lead Channel.

To mention some of the mines we will quote from U. S. Geological Survey, Professional Paper 172, published in 1932. We find the Oriental Mine prior to 1890 produced over two millon dollars of which $734,000 were obtained from an area on the vein measuring but 14x22 feet. The total diftss on this vein together wit hshafts produced nearly $400 for every foot worked. Then the old Sphoon Mine from whicn John T. Bradbury produced $20,000; The Rainbow which had a stamp mill working in 1859 and produced over two and one fifth millions in gold and of which the director of the mint in 1883 stated that it had produced $60,000 in a single day. The Tightner Mine Company which produced over three million in gold and paid over one half million in dividends, and the Original Sixteen-to-One which has produced many millions. Every foot of those very extensive workings on the vein including the shafts and principal raises have paid $230 a foot. In this mine the average ton of material, during its entire life, has produced an average of $20. From one small shoot nearly one million dollars were produced and several have produced over $200,000. A tenor of $50 and over per pound is not unknown in its ore.

Then there is the old Red Star Mine from which $80,000 were recovered in one high grade shoot about 1912. Shortly thereafter the tunnel caved and the mine was lost. Many attempts were subsequently made to relocate it but the old workings were never again found. The original survey was probably at fault Dozens of mines such as the Morning Glory, Osceola, El Dorado, Dreadnaught, produced fifty to one hundred thousand dollars each and were abandoned because the operators had spent the wealth taken from the high grade shoots and did not have enough left to carry them through the lean portions to the ultimate discovery of another bonanza.

THOMAS MAUL SEEKS ASSEMBLY OFFICE

During his campaign for the office of assemblyman to represent the Sixth District, of which this county is a part, Thomas Maul has visited all sections of the district. He states he has visited every county and every community in the district during the past sixty days.

Mr. Maul has successfully practiced law in the county of El Dorado for approximately ten years, during which time he has served the city of Placerville, first in the capacity of city trustee, and later as city attorney. He is a veteran of the World War, and a member of the American Legion, and a graduate of the University of California.

He states that his candidacy results from his feeling that the Sixth District, which comprises ten mountain counties, most of which are sparsely populated, should have a representative in the Legislature who truly understands the needs of the mountain counties and one who understands all the problems of these counties. He feels that his experience in the practice of law, bringing him in contact with all classes and interests, fits him for the office he is seeking. Te states that his candidacy is not sponsored by any group or section seeking political favor; that he has made no promises or pledges to any particular person, group, organization or interest; that if elected, he will go to the Legislature free of obligations to anyone except the voters of the district, and that he will represent the entire district and not any particular section, group, or interest

Mr. Maul states that he has received no contributions from any source, that his acmpaign is entirely financed by himself, and that in conducting his campaign he is holding his expenditures down to the amount permitted by law. He states that because of his desire to comply with the law in respect to expenditures, he finds it impossible to visit everyone, and impossible to address a communication to everyone.

He claims to have received considerable support in every county in his district, saying that many voters have announced their intention of supporting him because of their feeling that he, being independent of political obligations, promises, or connections, is best suited to represent the entrie district.

Mr. Maul states that if elected to the office of assemblyman, he will faithfully represent the entire district, working for economy, and at the same time having in view the maintaining of a high standard of government and a high standard of efficiency in public service; that he will always be interested in promoting the best interests of sportsmen in regard to fish and game of the state; that he is opposed to the use of the gasoline tax for any purpose other than road purposes, and that he will work toward a more equitable distribution of the same, among the smaller counties and municipalities; that his record has always been on the side of preservation of water resources of the state for the benefit of the land and the people; and that he has always worked toward the advancement of mining interests, and that he will continue his stand in these matters, as in the past. He states that he will as in the past, continue to work for the betterment and advancement of the mountain counties.

Walter R. Carlson, principal of the Nevada City grammar school, returned Monday from Arcata where he has been staying with relatives.

County Superintendent of Schools Mrs. Ella Austin has as a guest her daughter-in-law, Mrs. Bert Austin, of San Francisco.

Mr. and Mrs. H. E. Kjorlie arrived last week end from Palo Alto where they had been attending Stanford university. Mr Kjorlie is principal of the Nevada City high school.

Mr. O. McCraney was a business visitor in Plumas county this week.

- Preservation of Water Resources of State for the benefit of the land and people.
- Use of gasoline tax for road purposes only and a more equitable distribution of the same among smaller Counties and Municipalities.

Youthful Strength

Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created

TITUS-PEARLS

to help the million of men and women who have lost or are losing their vital physical power. In his 25 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: **High blood pressure, hardening of the arteries, physical exhaustion** after work or exercise, **dizziness, depression, neurasthenia, etc.**

All these troubles can be removed with **Titus-Pearls. Numerous** cases were treated by Dr. Hirschfeld in his Berlin Institute.

L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day. 2 tweeks later the medical report on this man was: General health better, more vigor; dizziness much less and returning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all wearinesse and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of life.

Start regaining your youthfulness now! To-day! In 2 weeks' time you will be aware of the new, virile force within you. Send $5.00 (cash registered or money-order) for 2 weeks' treatment.

PERSONAL MENTION

Mr. and Mrs. L. W. Norton and two children have returned from a vacation at Willits.

Elmer Poore of the You Bet district was a Nevada City visitor Saturady.

Mr. and Mrs. Frank Ghidotti and her sister, Mis Rachel Penrose, left Sunday morning for San Francisco, where they will spend part of their vacation. They will visit several places of interest in California before returning home.

Mrs. Belle Douglass is home from a six week's vacation spent in San Francisco.

Mrs. Illian of Oakland, a former Nevada City resident, visited with Mrs. Guenther and daughters, Mrs. James Dolan and Robert Allen, recently.

Mr. and Mrs. L. W. Jennings have returned from a vacation in Yosemite Valley. Mr. Jennings is much benefitted by the trip.

Mr. and Mrs. Fred Sauvee and niece spent Sunday on a motor trip that took them to Bear Valley, Louis Mills, Emigrant Gap and back by way of Colfax.

Guests over the week end at the home of Judge and Mrs. Raglan Tuttle were her sister and husband, Mr. and Mrs. John Pedlar and two children of Sacramento; Pierson Tuttle and his friends, Henry Kister and Carl Johanson of Williams.

Fred Tickell of Echo Lakes, who teaches at Stanford University, stopped over in Nevada City for a few day's visit with his uncle, Dr. A. H. Tickell, and wife.

Eddie Trimmer of San Francisco is here visiting his uncle and aunt, Mr. and Mrs. Will Jeffrey. He spent Sunday with Mr. and Mrs. Charles Guenther.

Miss Greta Granholm and Mr. McAnaw motored up from Sacramento last Friday and returned with Miss Beth Young, who spent the week end in that city.

Frank Comino of Calpella was a visitor at The Nugget office early this week. He is interested in the Twin Sister mine north of Nevada City.

Mrs. Ross L. Taylor and son and daughter of Downieville passed thru Nevada City Saturday enroute to Los Angeles where they are visiting for a time.

RICH STRIKE MADE AT GOOD LUCK MINE RECENTLY

One of the richest strikes in years occurreed recently at the Good Luck mine located three and one half miles from Railroad Flat. J. C. McDonald, who is the owner and operator of the property, was a visitor in Jackson last week and reported that high grade ore had been discovered to the value of between $250 to $300 a ton. McDonald is confident that the rich high grade will continue. At present, indications show high grade ore for 300 feet ahead.

An interest in the property has been sold to New York people who plan to sink and install modern equipment. The property has all the earmarks of a bonanza mine, typical of the early day mines.

E. L. Finley, proprietor of the Press-Democrat, Santa Rosa, passed through Nevada City Wednesday on his return home from a vacation trip.

Misses Dorothy and Alberta Baker of San Francisco spent last week end in Nevada City visiting their parents, Mr. and Mrs. E. J. Baker.

Mrs. Ella Ramsey of San Jose and daughter and husband, Mr. and Mrs. Chester Latta, all former residents, are visiting the family of C. S. Arbogast on Park Avenue, Nevada City.

Mr. and Mrs. La Mar Fleming have as guests his brother, Fenton Fleming of Sacramento, and Mrs. George Dillingham and little son of Brazil.

County Recorder Sam J. Clark has returned from a vacation spent in the bay region.

CARD PARTY ENJOYED BY MANY FRIENDS

Last Wednesday Mrs. Margaret Dickerman and Mrs. C. A. Bennett were hostesses at a delightful bridge party at the Nation Hotel.

Breakfast was served at the Coffee Shop at 10 o'clock after which they assembled in the upper lobby where tables had been placed for contract and auction bridge and mah jongg.

The following made high scores at the different games, Mrs. A. H. Tickell, Mrs. G. J. Rector, Mrs. Lola May Worth, Mrs. William Durbrow, Mrs. F. F. Nilon, Mrs. F. A. Elliott, Mrs. Ernest George, Mrs. Harold George, Mrs. T. A. Lane, Mrs. Wade Armstrong, Mrs. Harry Cox, Mrs. Ed Bennetts, Mrs. E. E. Baker, Miss Dorothy Waggoner, and Miss Winnie Mulloy.

Out of town guests were, Mrs. J. E. Nile and Mrs. L. L. Myers of Alleghany, house guests of Mrs. Bennetts; Mrs. Berg of Alhambra, who is visiting her mother, Mrs. Kervin; Mrs. Vivie R. Lindley of Berkeley, guest of Mrs. Worth; and Mrs. Sessions Rowell of San Francisco, who is visiting with her mother, Mrs. Sessions, who is spending the summer here from San Francisco.

Sixty guests were present to enjoy this most delightful occasion.

Beautiful dahlias, zinnias, and marigolds were used in profusion to adorn the upper lobby and the breakfast tables, adding much to the charm of the occasion.

Thomas Maul, candidate for the assembly was in town this week in the interests of his candidacy.

J. D. Elliott, of Placerville, who is a candidate for the assembly, was a Nevada City visitor early in the week..

NEVADA CITY MINE MAN ACCUSED GRAND THEFT

Robert Lane of Nevada City stands indicted on a charge of grand theft in connection with a mining deal in Nevada county.

Monday evening the San Francisco grand jury returned the indictment on the complaints of Thomas J. Cooper, William McCaw, and H. C. Lunt, mining property owners. They claim Lane failed to carry out a working clause in a five year lease he signed.

This is the property known as the Kistle ranch in the Canada Hill district.

Mr. and Mrs. J. Kinrade, of Hollywood, who have been visiting Mrs. Kinrade's aunt, Mrs. Jack King, at Alleghany, passed through town Saturday on their way home.

THE QUINN BOYS REPORTED IMPROVED, TO SET FRACTURES

Frank and Buddy Quinn, small sons of Mr. and Mrs. Frank Quinn of Grass Valley, who were so seriously injured by being struck by an automobile last week, are showing improvement. Dr. Jones, who is attending them has decided that he will plate the fractures of the broken arm and broken leg of the two children.

The improvement of the children will comes as welcome news to the many friends of Traffic Officer and Mrs. Quinn.

Mr. and Mrs. Frank Healy and daughter, Martha, of Burlingame spent last week end visiting her sisters, Mrs. A. Wisker, Mrs. Ray Davis and Miss Alma Marsh. She was formerly Miss Martina Marsh.

ONE WOMAN
tells another...

Women are good judges of value. And they're not easily fooled. They know the difference between "cheap" things and a worth while article at a low price.

That's why so many women of this community come here for jewelry, watches and silverware of the finer kind. Their good judgment tells them that they get more for their money.

Drop in yourself some day--then pass the good word along to your friends.

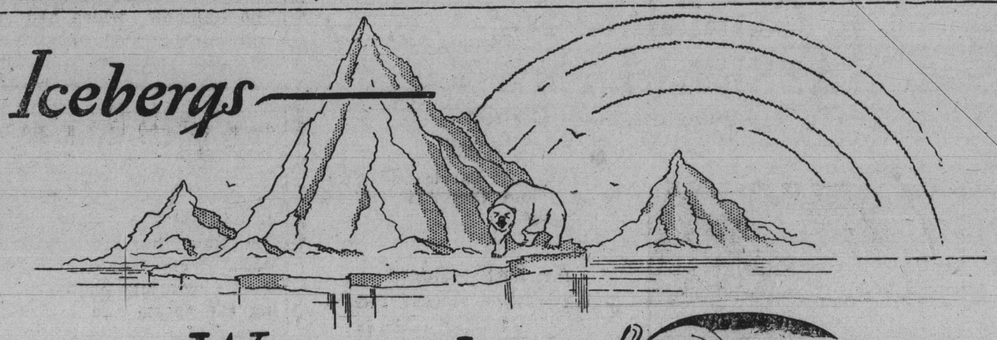
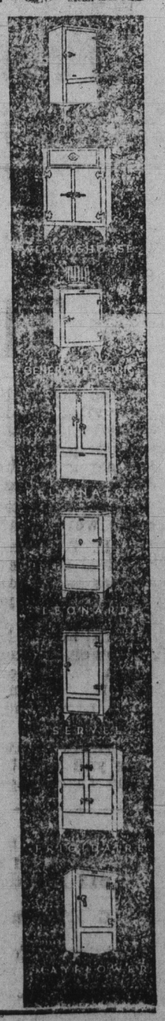
Icebergs



Watermelons

ELECTRIC REFRIGERATORS



CONSTANT, frosty cold—like that in the cavern of an arctic iceberg—is maintained within the spacious interior of an electric refrigerator. Here the heart of a watermelon can be chilled through and through—as best you like it—until it fairly crackles and pops with crispy coldness when sliced.

Likewise, the steady low temperature of an electric refrigerator may be relied upon to keep meat and vegetables fresh, the milk and cream safe and sweet...until ready for use. Nothing need be thrown away. Left-overs retain all their taste and wholesome qualities; eventually, they may be transformed into delicious new dishes. Crisp, brown croquettes, meat loaves, stuffed peppers, seem like special treats rather than left-overs.

On hot days, when appetites lag, proper summer diet calls for a variety of light, refreshing, frosty dishes. With an electric refrigerator, bits of fruit can be made into icy appetizers. Frozen salads may be attractively molded on fresh, crispy lettuce. Don't deny yourself the essentials of health during hot weather. Visit the display room of any dealer handling one of the electric refrigerators listed below. Ask about the easy terms by which you can get the electric refrigerator of your choice today.
